1) Notice of References Cited (PTO-892) 4) Interview Summary (PTO-413)						
2) Notice of Draftsperson's Patent Drawing Review (PTO-948) 3) Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08) Paper No(s)/Mail Date	Paper No(s)/Mail Da					

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 5, 6, 8, 9 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Thompson.

Thompson fig 1a teaches an ultrasonic transducer comprising one or more peizoelectric crystals (31, a tail mass (#3 left side) a head mass #7, #3 (right side) and a threaded bolt #6. Mass #3 can be titanium, where as not (mass #7) can only be aluminum or steel (col. 4, lines 22-33). The nut #7 can fairly be described as a threaded sleeve with a reduced diameter portion since the distance between the flat sections of the nut would be smaller than the distance (diameter) between opposite point sections of the nut.

Claims 3, 4, 7, 10, 11 and 13 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 14-26 are allowed.

Further cited of interest are Konno, Murray, Lewis and Asai.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark O. Budd whose telephone number is (571)272-2019. The examiner can normally be reached on Monday-Thursday from 6am- to 4pm***.

Application/Control Number: 10/667,116 Page 3

Art Unit: 2834

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nestor R. Ramirez, can be reached on ***. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
